

ENGLAND SINCE 1920

Lucian Ercolani, my Grandfather, founded ercol in 1920 in the heartland of English furniture making. Intent on designing and producing beautiful and honest furniture, from the very beginning both design and people were the cornerstones of his company. This remains true of the family owned, private company that continues his beliefs in the 21st Century.

Our passion for innovation in design and manufacturing is as strong today as it always has been. Our 160,000 sq.ft highly sustainable factory combines the very latest technology with time-honoured craftsmanship to create a range of unique pieces.

These are created by our very gifted in-house team of designers and production engineers working in a highly creative environment with our craftsmen and women in our factory in the Chiltern Hills. ercol has a strong heritage of being a successful British manufacturing brand. But we are equally proud to work enthusiastically with our partners in manufacturing companies spread across the world from Europe to the Far East.

They all contribute to the depth and breadth of ercol furniture.

The infinite variety of wood grain means each piece of ercol furniture you buy will have its own character, unique to that piece. All of our designs are created by our in-house design team and are made using a mixture of modern manufacturing and handcrafted techniques, meaning each piece is consistent yet unique.

We work using solid ash, beech, elm, oak and walnut and wood veneers where appropriate. Wood finishes and colours for each collection are shown on the specification pages. Our furniture is finished with a wood stain and a coat of lacquer to protect the furniture. Please note that our Clear Matt (CM) finish seals and protects the furniture, but has no colour stain in it. As a result it does not blend or conceal any of the natural variations within the timber; it gives a very natural finish which shows the variation of the wood colour and grain to its full natural beauty. This can be more noticeable on ash timber and the finish colour will differ between different timbers.

We only use wood that comes from responsibly harvested sources and complies with the European Timber Regulations.

All ercol fabrics are sourced from high quality mills and are manufactured to meet or surpass the highest domestic usage test standards. Fabric designs are not pattern matched unless specified.

We have a wide choice of fabrics for our sofas and chairs. Fabrics to suit the furniture designs have been carefully selected and the names of the fabric collections are shown on the specification pages – **ercol, edit, natura, paloma and dining.**

Scatter cushions are included with many models but additional scatter cushions can also be purchased.

We would like you to make an informed decision, before ordering your furniture. We suggest you order samples of fabrics, wood finishes and colours which are available free of charge.

To order call customer services on 01844 271800 or visit ercol.com
